### DETAILED ACTION

1. This application has been examined. The claims 1-5, 7-8, 10-27 are allowed.

### *Reasons For Allowance*

2. The following is a statement of reasons for the indication of allowable subject matter:

None of the cited art teaches or suggests an analog movement with a hand axis disposed beneath the display member; and a minute hand and an hour hand; wherein the electro-optical display device and the member each are formed with a through hole, wherein the hand axis of the analog movement penetrates through the through holes formed in the electro-optical display device and the display member, and includes a projecting part which projects out of the electro-optical display device; and wherein the minute and hour hands are fixed to the projecting part of the hand axis of the analog movement as claim 1; or a driving circuit for driving the dot display sections disposed within an area corresponding to the first area of the display member to display data in gradations of color...a second period of time as claim 11; or plural dot display sections of the electro-optical display device are disposed substantially in an N X M matrix arrangement, and a shape of each of the plural dot display sections grows larger as a location of the dot display sections grows larger as a location of the dot display section on the electro-optical display device comes to the center from twelve o'clock and reduces narrower as the location of the dot display section on the electro-optical display device comes to six o'clock from the center, and an area where all the plural dot display sections are disposed forms substantially a round pattern as claim
